# AUSTIN FIRE REGULATIONS AUSTIN, TEXAS

## FIRE EXHIBIT REGULATIONS FOR ASSEMBLY OCCUPANCIES

The information contained in this brief outline does not by any means thoroughly cover the criterion and standards contained in the Uniform Fire Code, as adopted by the City of Austin, but it does provide the fundamental rules governing exhibits in any building open to the public.

The following entities are responsible for ensuring all regulations are followed; client, exhibitor, service contractors and the Convention Facility. It is a requirement that the Austin Fire Department review and approve all event pre-planning documents and floor plans.

Remember, the fire codes for Austin may be different from other cities and exhibitors will be responsible for complying with the Uniform Fire code. The Convention Facility will take reasonable steps to ensure that you are allowed to display your products effectively, as long as it does not create a fire or life safety hazard to yourself, other exhibitors or people attending the exhibit.

1. Floor plans for all shows are to be submitted to the Convention Facility for review and approval. They will submit the floor plans and event pre-planning documents to the Austin Fire Department's Fire Marshal for approval. An approved copy will be provided to the event client. A copy of the approved plans must be available on site.
2. No display or exhibit shall be installed or operated as to interfere with access to or with the visibility of any required exit or exit sign, nor shall any display block access to fire equipment.
3. All exhibit booths must maintain clear and appropriate exits from the booth. Any booth of 750 square feet or more must have a minimum of two exits as far from each other as possible.
4. Displays with any type of cover, i.e. tents, buildings, awnings, etc. must be 300 square feet or less; if larger than 300 square feet they must meet the following regulations:
